

Career Objective

Motivated Java Developer (Fresher) with strong knowledge in Core Java, OOP, JDBC, and Spring MVC. Skilled in building backend applications and REST APIs. Seeking an opportunity to contribute to backend development and grow as a Java developer

Educational Qualification

- **MCA – Master of Computer Application** | Jawaharlal Nehru New College of Engineering | 2026
- **BCA-Bachelor of Computer Application** | SR Nagappa Shetty Memorial National College of Applied Sciences | 2023
- **PUC – Commerce** | Priyadarshini Independent PU College, Shimoga. | 2020
- **SSLC** | Priyadarshini English High School | 2018

Projects

AIR CANVAS (Virtual Drawing System Using Hand Gestures)

- Designed and developed a real-time virtual drawing application that allows users to draw on screen using hand gestures captured through a webcam
 - Implemented hand tracking and gesture recognition to enable smooth and touchless interaction without requiring physical input devices
 - Built an interactive interface supporting drawing, color selection, and erasing functionalities in real time
- Technologies:** Python, OpenCV, NumPy, MediaPipe, Computer Vision

Cloud-Based Application Deployment using OpenStack (IaaS) & Apache Web Server (SaaS)

- Implemented Infrastructure as a Service (IaaS) using OpenStack by creating and managing virtual machine instances
 - Configured compute resources (CPU, RAM, storage) and launched Ubuntu-based instances in a cloud environment
 - Set up networking components including floating IP, security groups, and instance connectivity
 - Installed and configured Apache Web Server on the virtual machine to host web applications
 - Deployed a sample web application, demonstrating Software as a Service (SaaS) delivery model
 - Enabled remote access and monitored server performance for stable deployment
 - Gained hands-on experience in cloud computing, virtualization, and deployment architecture
- Technologies:** OpenStack (Nova, Neutron), Red Hat Enterprise Linux (RHEL), Apache HTTP Server, Virtual Machines, Cloud Deployment, Networking, IaaS, SaaS

Technical Skills

- **Programming Languages:** Java(Core, OOP, Collections,Java 8), Python(Basic)
- **Web Technologies:** HTML, CSS, JavaScript
- **Databases:** MySQL, SQL, MySQL (Data cleaning and Data Manipulation)
- **Tools & Platforms:** Git, GitHub

Internship

Software Development Intern — Xworkz ODC, Bangalore

February 2025 – May2025

- Developed backend modules using Java, JSP, JDBC
- Implement CRUD operations using MySQL
- Collaborated using Git-based workflows and participated in code reviews.
- Focused on writing clean, maintainable, and reusable backend code.

Technical Summary

- Strong interest in backend development using Java and scalable application design..
- Hands-on experience in backend development using Java technologies like Spring MVC and JDBC
- Good knowledge of frontend technologies including **HTML, CSS, and JavaScript**.
- Skilled in database design and management using **SQL** and **MySQL**
- Proficient in **Git and GitHub** for version control, collaborative development, and code management.

Awards and Certificate

- Oracle Cloud Infrastructure 2025 Certified Foundations Associate
- Certification in Research Methodology and Intellectual Property Rights (IPR), 2024
